

# Cook faster, cheaper, easily and safely with **clean cookstoves**

Why cook on a stove that fills your lungs with smoke and soot, when you can have one that is clean, efficient and affordable? Improve your health, protect the environment, empower women, save time and save money. ***Transform your life with clean cooking.***

## Save money

- Spend less on cooking fuel
- Stove lasts longer
- Control heat, waste less energy

## Save time

- Spend less time starting the stove
- Cook faster
- Spend less time looking for firewood
- Cook two or more dishes at the same time

## Cook easily

- Buy fuel any time of the year
- Cook indoors, sheltered from the weather
- Clean cookstoves are easy to use and regulate heat

## Cook hazard-free

- Less exposure to smoke and soot
- Less risk of fires
- Improved air quality
- Reduced risk of respiratory and heart diseases
- Less eye irritation
- Fewer body burns

## Clean cooking empowers women and children

- Women have more time to focus on business, work and rest
- Children have more time to study

## Clean cooking is good for the earth

- Less demand for charcoal and trees means biodiversity and natural habitats are protected
- Fewer harmful emissions for the environment
- Reduced risk of climate change, floods and droughts
